PROJECTS

Project 1

BVRITH

- Honey Bee Breeding.
- It is a Python project that allows users to calculate the shortest distance between two bee cells and visualize the path taken by the bees using GUI.
- This consists of mathematical calculations to find the path and visual representation for the insights of the bee breeding.

Project 2

Hackathon at VNR VJIET

- A Smart Calendar
- This a Web Application where the users are able to perform tasks like To-Do list and add events for a particular date which also gives Suggestions to improve their lifestyle and Schedule their tasks.
- It also gives sweet reminders to take a break and estimate the weather conditions of a particular date so the users can take their precautions to avoid getting rained on or tanned.

ABOUT ME

DASARADHI SAI LASYA

An Undergraduate B.Tech Student

- I am Currently an Undergraduate Student at BVRITH Pursuing My B.Tech Degree for Computer Science and Engineering -Artificial Intelligence and Machine Learning - CSE(AIML).
- A Very Passionate and Hard Working student Thriving to pursue a Exceptional job after my studies.
- I have always being captivate by the endless opportunities that the field of AI and ML presents and I'm eager to explore more of it and make remarkable changes in this field of Science.

MY LIFE PHILOSOPHY

It does not matter how slowly you go as long as you do not stop....
